

# Migrant Justice is Climate Justice!

*ecosocialist.scot* welcomes the building of links between migrant rights campaigns and the climate justice movement and encourages our readers to support the following series of workshops in the run up to COP26 in Glasgow in November 2021, reposted from [MORE Facebook event page](#).

[“Migrants Organising on Rights & Empowerment \(MORE\)”](#) are organising a series of free online workshops exploring the links between climate justice and migrant justice, in the lead-up to the UN COP26 international climate negotiations in Glasgow this year.

The sessions are open to all migrants, asylum seekers, refugees and folk with experience of the asylum system and started in January 2021 on the last Monday of each month.

With these workshops we aim to support folks from the Scottish diaspora to connect the dots between migrant, racial, and climate justice, to become familiar with ‘climate jargon’, the COP process and relevant legal frameworks, and to access climate organising spaces. We hope these sessions will support migrant-led campaigning in the lead up to COP26.

Here’s an overview of the up-coming sessions

29 March – National level climate policy

26 April – Exploring the links between climate justice, migrant justice & colonialism

31 May – Our demands for COP26 –

28 June – How to get our voice heard at COP26 –

26 July – Local action on climate change – 26 July

27 Aug – Our strategy at COP26 & Next steps – 27 Aug

Each session has an invited guest speaker, and the COP26 Coalition and Tripod are offering logistical and facilitation

support for the sessions.

You can find slides and resources of previous sessions here:
